## Assistive Devices and Adaptive Structures (for the differently abled)

### Assistive devices -

A tool that helps a person with a disability to do a certain task. Bed for patient ,Cane, Wheelchair, Walker, Hearing Aid are examples of assistive devices.

Benefits for Assistance devices - It helps to safeguard the people we support, increasing people's independence, privacy and dignity by providing care only when needed.

### Institutional provisions for differential student needs

TEI celebrates International Week for Persons with Disabilities.

IQAC of TEI and Alumni Association organised the seven days programme as – '**Incredible people with Jaw Dropping Determination**'.

This TEI has concern with students with special needs. The institute has certain equipments which could help special need students.
