(CIE) of student learning is in
place in the institution**

2.6 EVALUATION

2.6.1 Continuous Internal Evaluation(CIE) of student learning is in place in the institution

We at TEI, follow comprehensive internal evaluation. It covers assessment from all aspects to develop necessary competencies and skills.

The PLO's are tried to achieve through CLO's through a number of activities, assignments, formative, summative assessments. Achievements of PLO's and CLO's is visible in evidences of outcomes.

Formative evaluation is done through class tests, assignments, essay test, practice teaching lessons, group work assignments, community work, learning resources, internship and book review. Skills are achieved through teaching learning like communication skills, group discussion, leadership skills etc.

Summative evaluation is done through university examination.

Students are oriented about entire B.Ed. course at the inception and about each semester as and when they commence. All the academic activities are communicated to the students through circulars, notices and time table on notice board.

Results of all the tests are analysed and necessary feedback is given in time by the respective professor.

Through essay test students are prepared for the conceptual understanding of various courses. Class test are conducted twice for the better preparation of university examination. Students are oriented about various assignments. They develop writing skills, and learn how to present.

For various assignments and courses, students are motivated to present seminars- activities individually and also in groups.

In TEI, students are encouraged to participate in co-curricular activities. This builds confidence and abilities in them. The overall personality is developed through the implementation of activities. The practicum is mainly focussed on practical skills like, how to teach, interpersonal communication, class room management etc. Students learn and refine their practical skills by organising activities in their practice teaching schools.

Pedagogy of school subjects is very important aspect for B. Ed. students they prepare learning resources based on their pedagogy. They also prepare teaching aids for their practice teaching lessons. This helps them to develop creativity and interest. Book reviews help this students to develop reading habits, language, writing skills, critical thinking. Through audit course- 'Drama and Art in Education' and 'Understanding the Self', students are involved in various activities, experts are invited and students get an insight into understanding themselves and improving further.
