2.7.3 The progressive performance of students and attainment of professional and personal attributes in line with the PLOs and CLOs is monitored and used for further improvements

The college offers B.Ed programme with clearly defined outcomes. Programme Learning outcomes and course Learning outcomes are in sync with each other.

The college has a well planned and systematic process of collecting and evaluating data on programme and course learning outcomes and uses them to overcome the barriers to learning.

Measurement tools such as seminars, tests, and assignments are used to assess student learning outcomes. It is used by the college to overcome learning obstacles.

As per Continuous assessment, depending on the course style, several methods for continual evaluation include class tests and assignments.

Different ways in which the students are made aware of learning outcomes are as follows:

- a) The results of each academic year are analyzed thoroughly by the Principal who in turn discuss them with the teachers.
- b) The names of meritorious students are prominently displayed to encourage new learners to work in the right direction.
- c) Such meritorious students are felicitated for their performance during Annual day.
- d) The intended Learning outcomes of other co-curricular and extra curricular activities are also communicated to students from time to time in classes also so that they understand the importance of developing an all round personality.
- e) Winners of cultural and Sports events are awarded prizes.

Information about student learning is assessed through both direct and indirect measures. Direct measures may include assignments, exams, essays, action research projects and other performances. Examples of indirect measures include course evaluations, course enrolment information and school placement rates.

Approaches for measuring students' learning:

Formative assessment - Any means by which students receive input and guiding feedback on their relative performance to help them improve. It can be provided face-to-face during college hours or in written comments on assignments.

Summative assessments - Tests, assignments and other course activities that are used to measure student performance. They often reveal what students have learned at the end of a unit or the end of a course. Within a course, summative assessment includes the system for calculating individual student grades.
